Monaci delle Terre Nere

Monaci delle Terre Nere is a luxury countryside retreat located on the slopes of Mount Etna. It is a serene place, filled with Sicilian scents and colours, set in a 62-acre estate which has an organic farm and terraced vineyards, and overlooks the Mediterranean Sea. Since 2018 it became a member of Relais & Chateaux group.

Founder Guido Coffa took over eight years to create the boutique hotel it is today, complete with 27 rooms, suites and villas, Locanda Nerello - the hotel's fine-dining restaurant - and the charming Convivium Bar. The Pool Restaurant and L'Orto dei Monaci Hall.

Rooms, suites and villas have original features, such as oak-beamed ceilings and stone walls, and combine traditional Sicilian architecture and contemporary design. An ancient wine press and painted frescos offer traces of the past, and sit in perfect harmony with wonderfully eccentric paintings by British-Brazilian artist Olivier Mourao, modern Italian furnishings by Flos, Lago, Gervasoni or B&B Italia and the owners' personal collection of antiques, reclaimed pieces and art.

Perfect for couples, friends and families looking for an exceptional experience, Monaci delle Terre Nere is the ideal place to discover Etna wines from the estate and beyond, as well as deliciously authentic food, cooked with ingredients that are grown on-site.

At the hotel there are plenty of spaces to stay and explore, from the scenic pool, to the delightful herb route and gardens. Sip cocktails at the bar or on the panoramic terrace, immerse yourself in a Sicilian cookery lesson or a wine tasting session, explore the pathways of the estate or stay in the comfort of your room: Monaci delle Terre Nere offers many possibilities, whatever the time of the year you chose to visit.

New for 2020: new suites will be unveiled together with 7 private pools and "L'Orto dei Monaci" a multifunctional area immersed in the orange tree garden for private events, meetings, parties.
