It's Borgo Egnazia: it's Nowhere Else.

#### **HISTORY**

"Offering guests an experience that is impossible to live elsewhere, based on the authenticity, the spirit and the beauty of the local culture": for over twenty years this vision has allowed the Melpignano family, deeply in love with this land and its traditions, to contribute to transforming Puglia into one of the most sought-after destinations in the world.

The story begins in 1996, when a far-sighted entrepreneurial vision from Sergio and Marisa Melpignano transforms Masseria San Domenico from a private family residence into an exclusive oasis of peace open to guests from all over the world.

From May 2010 Borgo Egnazia is the largest property of the San Domenico Hotels Group, which includes Masseria San Domenico, Masseria Cimino, Masseria Le Carrube, San Domenico Golf, all located in Puglia, and San Domenico House in London. Each structure has an absolutely fascinating identity, made unique by the highest levels of hospitality.

# **ROOMS AND VILLAS**

Since 2010 Borgo Egnazia is the essence of the authentic Puglian hospitality. The property built entirely of "tufo", the rough typical limestone, and local stones cut by the skilled hands of stone masters. Artist and designer Pino Brescia was inspired by the simplicity of Puglia's ancient farmhouses and rural villages. It is a contemporary interpretation of Puglian architecture. Borgo Egnazia provides three kinds of accommodation, different in scope and size, but all conceived as a harmonious blend of tradition and innovation, modernity and authenticity, grandeur and simplicity.

Discovering Puglia is the beginning of a true experience of love.

During the relatively mild fall and winter seasons, a vast choice of produce from the ground, beautiful colours, unique village festivals and ancient traditions is guaranteed, while spring and summer literally make Puglia bloom and burst with events, beach parties and shows. Moreover, regardless of the season, it's possible to enjoy the natural landscapes and human settlements: always breath taking to watch. Puglia is also renowned for its culture and art; it's nice to discover the villages, churches, castles and places that are worth more than one visit such as the truly peculiar UNESCO World Heritage sites: the world-famous "trulli" (cone-roof houses) in Alberobello, the beautiful and mysterious Castel del Monte near Andria and Monte Sant'Angelo, one of the oldest Michaelic cult sites.

Also, the amazing and unmissable towns of the Itria Valley (the breath taking "cummerse" houses in Locorotondo or Ostuni, the "White Town") to the small seafront village of Polignano and Monopoli, and the marvels of the Salento area (the Baroque buildings in Lecce, also known as "the Florence of Southern Italy", and the measured elegance of Otranto, the easternmost city on the Italian peninsula).
