

Experience a vacation photographer with Pix Around !
We give value to your memories

Some of you may have never considered or heard of a vacation photographer, but we're certain we can all relate to the same situation.

For months you have imagined the journey you so desired to take and you have thought of all the wonderful photographs you would have liked to have as a souvenir. But once there, it proved nearly impossible to get great vacation shots.

It can be difficult to capture those beautiful vacation moments on your own. That's why we created Pix Around.

We have selected the best photographers from around the world and have already made hundreds of wonderful photo shoots of couples, proposals, hen parties, weddings, families and multigenerational reunions.

With a professional photographer you don't have to worry about any family members being left out of the photos.

Pix Around in 2021 launches the Luxury Edition, carefully designed for the most demanding customers.
