ON ROME'S ARTISTS' STREET, NEW 5 STAR BOUTIQUE LUXURY WITH THE OPENING OF MARGUTTA 19

(ROME, ITALY): Margutta 19 is a luxury five-star boutique hotel in a glorious palazzo on Via Margutta, known as the “artists’ street”. Building on the success of Babuino 181 and Mario de’ Fiori 37, **Margutta 19** is the latest creation in the Rome Luxury Suites collection. An unparalleled location, Via Margutta is a quiet cobbled lane in the heart of the city. This beautiful backstreet is where Picasso created many works of art and where Gregory Peck charmed Audrey Hepburn in *Roman Holiday*.

Backed by lush Villa Borghese gardens, Margutta 19 is a few paces away from the glamorous shopping district centered on Via Condotti, splendid Piazza del Popolo, and the sweeping architectural masterpiece of the Spanish Steps. But this is also a genuine Roman neighbourhood where guests will experience Rome differently, feeling immediately at home.

Combining high-end Italian contemporary design with serene elegance, Margutta 19 is a haven to return to after exploring the splendours of Rome. Our 22 suites are of a rare size for central Rome, 40-70 sq metres, with 5 star fittings including travertine bathrooms, freestanding baths, luxurious duvets and designer toiletries.

Enhancing the Margutta 19 experience as a stylish home away from home is **EMME** restaurant. EMME has become the neighborhood hub - a place to meet, have a coffee or an aperitif, and dine on great food. EMME, offers Italian contemporary cuisine with menus that reinterpret the vast Italian food culture with freshness and imagination. It’s that genuine rarity: as popular with locals as with people visiting Rome. And while the interior is fabulous the highlight is the gorgeous outdoor garden terrace, which is a magnet on Rome’s many balmy days and evenings.

And our front desk team will curate a Roman experience to ensure guests discover the secrets of this exceptional neighborhood. Margutta 19 is Rome’s most luxurious home from home.
