CONCEPT

Satori merges the comfort of a five-star boutique hotel with a traditional hand-built wooden schooner to create the ultimate classic sailing experience.

Inspired by the understated elegance of the 1920s and '30s era with exquisite wood detailing and expansive window views, *Satori* features state-of-the-art living, dining and leisure facilities in a seamless design that amplifies the feeling of space and privacy on board, with various areas for guests to retreat to in intimate seclusion.

Satori was born of the passion and experience of designers Claus and Jeanette Thottrup, the dynamic duo behind the Borgo Santo Pietro Group of lifestyle companies, inspired by their love of sailing and ongoing quest to create experiences for guests that go beyond the bounds of the known to unite luxury and nature in a way that has never been done before.

Flawless service is therefore built into *Satori's* DNA, where guests enjoy Michelin-starred dining prepared by a personal chef from the Group's restaurants Meo Modo and La Bottega del Buon Caffè, onboard spa facilities, a range of the latest innovative water toys, and an extensive program of concierge activities managed by five-star boutique hotel and estate Borgo Santo Pietro. Each of the eight crew members have been hand-picked for their expertise, whether in navigation and seamanship, gourmet dining or five-star service, while *Satori's* two 600-horsepower engines offer guests the choice of both motoring and taking long-haul voyages as well as enjoying the timeless feeling of classic sailing.

SATORI

The state of sudden, indescribable, intuitive enlightenment.

- Zen Buddhism

DESIGN

Finished in glossy mahogany and walnut with teak floors, wood panelling and large windows throughout, *Satori* embodies the slow living and exquisite detail of classic bygone-era sailing.

Distinct atmospheres on deck

Claus and Jeanette Thottrup took their signature holistic approach to creating distinct atmospheres on board *Satori*, such as situating the open-view kitchen, bar and dining area mid-deck for greater privacy. Framed by large windows which offer sweeping views of the sea, the kitchen has been designed to inspire creativity for the chef within as well as invite the guest to actively observe the deft preparation of gourmet dishes.

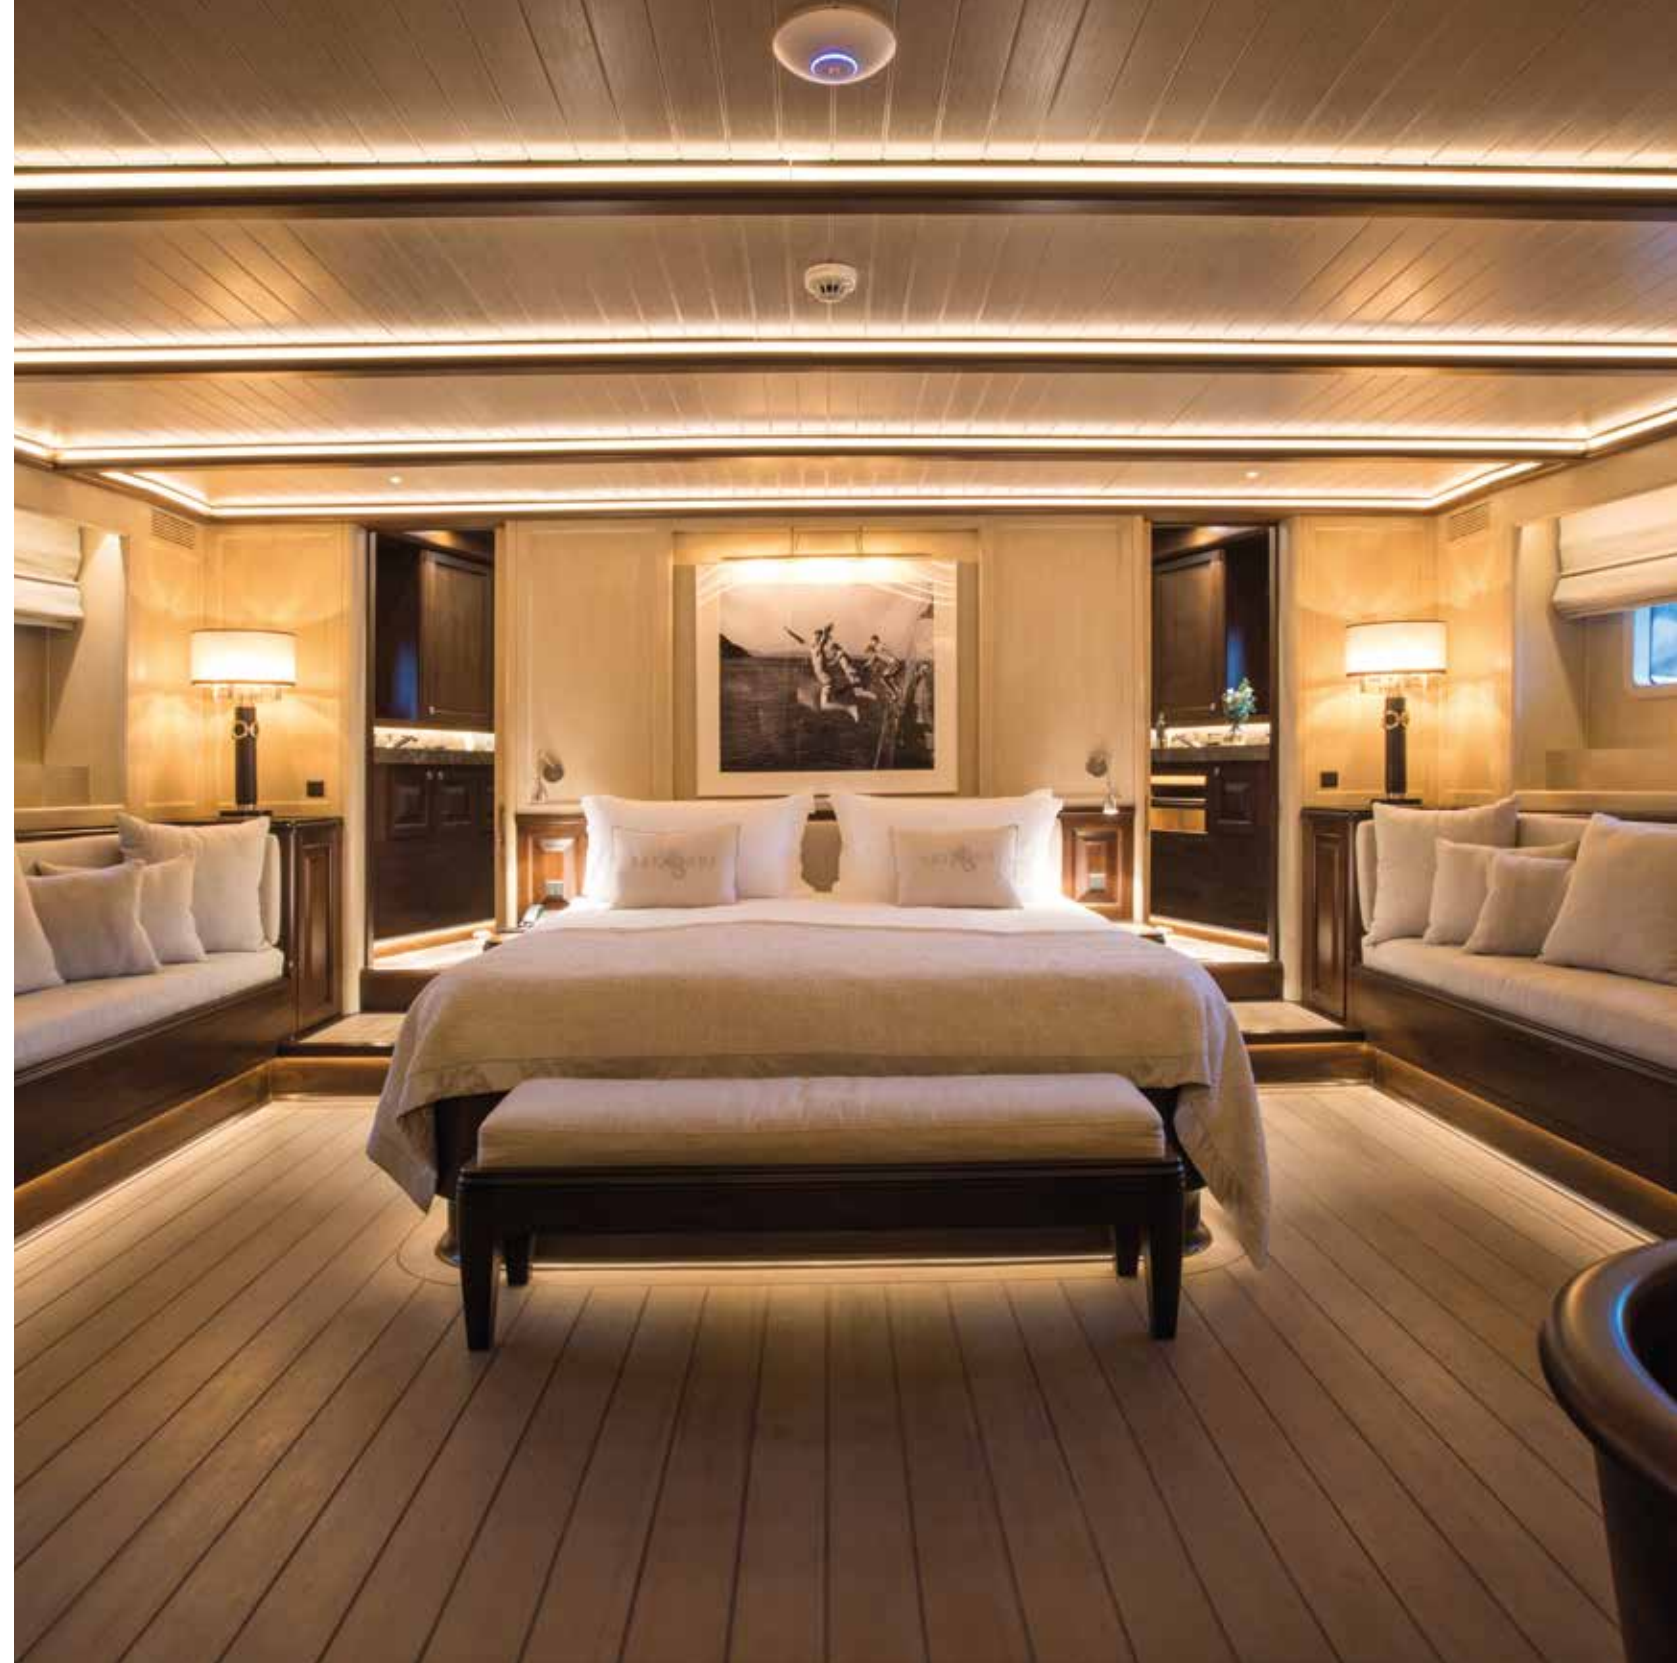

A coffee lounge-style area on the aft deck with a second bar, comfy lounge seating and a large covered daybed creates a leisurely social ambience where guests can sip freshly brewed espresso coffee or a glass of wine. *Satori's* front deck is dedicated to cinema and solitude, with a state-of-the-art, fold-away cinema screen and large sunbed to enjoy the heat of the sun and gentle rise and fall of the waves. The top deck offers even more options for private sunbathing, with a row of sunbeds commanding spectacular views over the water, while old-fashioned deck-chairs situated mid-deck add to the quintessential feeling of sailing upon the seas.

Design highlights

- Hand-carved wooden detail in solid mahogany and walnut, and teak floors throughout (including outside);
- First-class modern rigging;
- Large windows above and below deck to maximise light and views;
- Flat floors above and below deck for ease of movement;
- Professional, open-view kitchen and dining mid-deck for greater privacy in port;
- Convertible spa cabin with steam bath;
- Sonos sound system throughout;
- Open-air cinema with cordless headphones;
- Telescopic swim ladder that dips straight into turquoise waters at a depth of 3–4m, enabling guests to experience true blue-lagoon swimming and snorkelling;
- An enormous range of top-of-the-range toys for land and water, including Gocycle G3 electric bikes, seabobs, a Ringo and a jet tender.
- Onboard office facilities with wi-fi internet, Mac computer, iPad, scanner and printer.

ON BOARD

“It’s all about *living* on the water and ‘cocooning’ with who you have with you.”

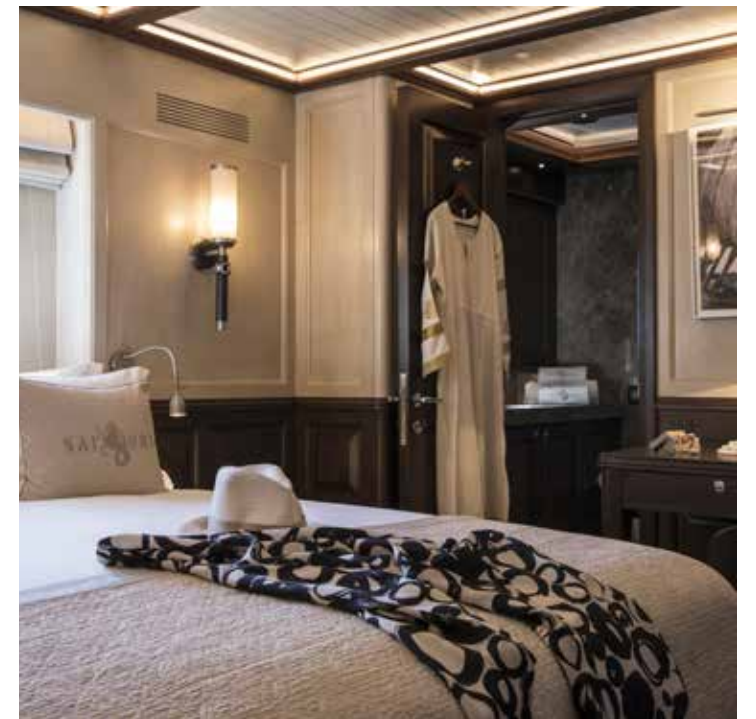

– Co-owner and co-designer
Jeanette Thottrup

Wellness lies at the core of *Satori*’s philosophy. From its carefully designed spaces that merge the best of nature and luxury, fostering good company and the sharing of solitude, to dining on the catch of the day, prepared with passion and fresh ingredients, a feeling of wellbeing permeates the guest experience on board.

Satori is not just about the design but how it is *lived*. The yacht’s bespoke design enables guests to relax in intimate seclusion, with various decks offering separate spaces to enjoy shared company or retreat to for a moment of privacy. To maximise the feeling of freedom and privacy on board, the captain’s wheelhouse and crew living and working areas are completely separate from the main guest areas.

Connection with nature permeates the experience on board, from the perennially visible views of the sea in the guest rooms, open-view kitchen and indoor living area, to the outdoor cinema that unfurls beneath the stars to provide high-tech down time while still maintaining a connection with the natural surrounds.

Satori also features a private wellness cabin fitted with a steam bath that can be converted into an extra guest room. Before sailing, guests can choose how they would like to use the space and arrange to have a personal therapist on board. A sanctuary for the senses, *Satori*’s spa facilities enable guests to indulge in a revitalising treatment or soothing massage, topped off with a relaxing and healthy steam therapy at the end of a long salt- and sun-filled day.

DINING

“With a five-star hotel and two Michelin-starred restaurants, dining is part of our DNA and a great passion of ours on *Satori*.”

– Co-owner and co-designer
Claus Thottrup

Dining takes centre-stage on *Satori*, with a professional open-view kitchen, expansive mahogany bar and dining area situated mid-deck, where guests are able to watch their personal chef at work and dine in privacy while in harbour.

Managed by chefs from our Michelin-starred restaurants Meo Modo and La Bottega del Buon Caffè in Italy, the menu is tailored to local areas en route and ranges from light snacks to gourmet degustations, highlighting the catch of the day.

Guests not only have the chance to observe the open-view kitchen theatre as it unfolds but also become active participants. *Satori* offers guests the opportunity to indulge their gastronomic passion by taking cooking classes with the chef, using ingredients freshly harvested from the sea or hand-picked from local markets along the coast, drawing their inspiration from the sparkling sea viewed directly from the kitchen bench.

Satori also features an air-conditioned, 250-bottle capacity wine cellar. Guests are invited to store their own wine in the cellar or pair their meals with a selection from *Satori*'s outstanding collection of boutique wine labels.

TAILOR-MADE

Whether navigating the jewel-like coves of the Mediterranean coast or exploring cultural sites on land, each of *Satori's* itineraries and activities are tailor-made according to clients' wishes.

Guests are invited to plan their ideal holiday in collaboration with *Satori's* captain and our five-star concierge service at Borgo Santo Pietro by customising the sailing route and organising various activities. This takes place both during the planning process and en route, and may vary depending on prevailing wind and weather conditions.

Explore the Mediterranean's most famous coastal cities on a shopping or gastronomic adventure, take an inland excursion with a private guide to discover sites steeped in history and legend, and dip into the rhythms of daily life in a new culture and discover local treasures.

Our comprehensive selection of concierge activities are tailor-made to guests' desires and include such services as:

- Helicopter rides;
- Private transfers;
- Personal shopper;
- Kids' activities;
- Private tour guide;
- Michelin-starred executive chef services onboard;
- Recommendations for top spots to go swimming, snorkelling, etc;
- Advice and details on where to find sought-after bars and restaurants.

"Live in the sunshine,
swim the sea,
drink the wild air."

– Ralph Waldo Emerson

TOYS

Blue-lagoon sailing starts right here, as *Satori*'s telescopic swim ladder reaches straight into turquoise waters to a depth of 3–4m. Kids and adult alike find their playful side well catered for, with an enormous range of water toys on board and Gocycle G3 electric bikes for exploring on land.

Gocycle G3:

Make visits ashore more fun and relaxing with one of four Gocycle G3 electric bikes, the most cutting-edge e-bike available in the world to date.

Jet Tender:

A handsome 5.65m tender with a 180hp engine and sun cover, the Dieseljet 565 planes nimbly over chop, comfortably seating up to nine passengers.

Optimist Sailor:

Learn to sail in maximum comfort and safety with an Optimist sailor, great for kids and first-time sailors.

Water Skis and Wake Board:

Thrill-seeking guests can boost their adrenaline levels at sea by enjoying two of the most popular sports on the water, buffeted by the wind and doused in refreshing salt spray while being pulled over the shimmering waves.

Ringo:

A high-adrenaline diversion for friends and family alike, Ringo offers the thrill of waterskiing from the bouncy comfort of an inflatable float, pulled through waves and wakes all in the name of fun.

Snorkelling:

Guests will find everything they need to dive in and explore the underwater wonderland beneath the Mediterranean, including top-of-the-range snorkels, masks and fins.

Jet Skis:

Normally used for competition, these super-fast, high-performance Yamaha Superjet jet skis offer enormous scope for adventures on the water. *Please note that certain regions may require a licence and allow the jet ski to be used in designated areas only.*

Seabobs:

Power through the deep with two Cayago F5S Seabobs. These high-performance, easy to manoeuvre toys tow swimmers through the water up to a depth of 40m. *Please note that seabobs are currently set to a safety depth of 2.5m.*

Kayaks:

Explore hidden inlets along the coastline with three Feelfree Juntos kayaks. With additional space for a child or pet, this kayak is perfect for the paddler who wants to bring a partner along or simply enjoy some solitude.

THE CREW

The sailing crew lies at the heart of any memorable cruise, which is why *Satori's* eight crew members have been hand-picked for their expertise, whether in gourmet dining, five-star service or navigation and seamanship.

Satori's superb dining team showcases the talents of two chefs at all times: our resident gourmet head chef together with one of our executive or sous chefs from our Michelin-starred restaurants Meo Modo and La Bottega del Buon Caffè. Guests who would like to ensure the services of one of our Michelin-starred executive chefs on board may enquire about availability, as this requires special arrangement and may incur an additional cost.

Each of our stewards has been hand-picked from our five-star boutique hotel and estate Borgo Santo Pietro, joining our highly experienced hostess to ensure the utmost care of and attention to guests. The choice to increase the crew from a standard size of six to eight members with an additional chef and steward was made to ensure that guests receive the same five-star service offered at Borgo Santo Pietro while maintaining a sense of space and privacy on board.

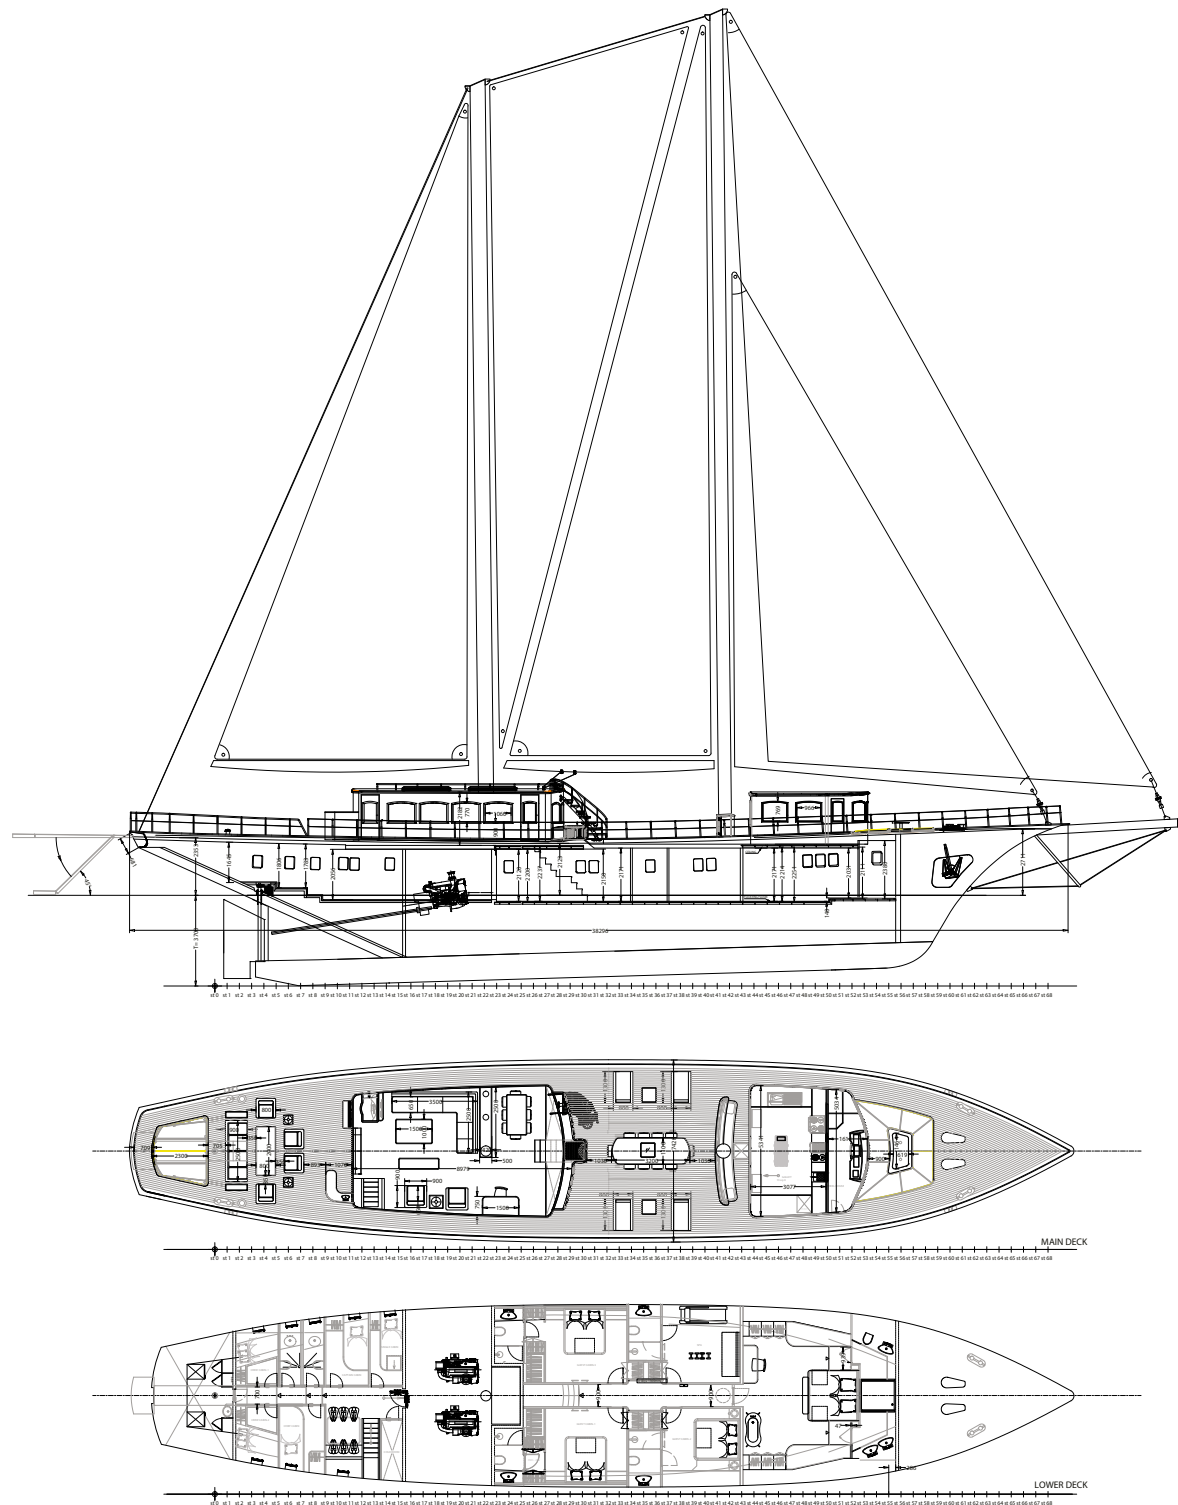

Satori was built in collaboration with the boat's captain and Thottrup family friend Ali Aker, whose sailing experience spans more than 25 years on various types of boats throughout the Mediterranean, including 10 years at the captain's helm. A fluent English speaker, Captain Ali also shares his expertise as a free diver and night diver with guests, offering practical advice and assistance with the various water sports available onboard. *Satori's* first mate, engineer and deckhand share a great love of sailing as well as extensive experience, and have been involved in the *Satori* project from various stages.

"Ali's personality, willingness and devotion to this boat, as well as that of the crew and service staff, who all enjoy real sailing, make a huge difference to the guests and is what will enable them to enjoy a truly special experience."

– Co-owner and co-designer
Claus Thottrup

SPECIFICATIONS

SAFETY: *Satori* was registered under the Maltese flag in 2017 and is built to the latest international safety standards. It also features virtually flat floors throughout, lit with guide lights, and the option of attaching a safety mesh around the deck when small children are on board.

Water Maker: 2 x Technikomar, 150lt per h

ENGINES

Quantity: 2
Fuel Type: Diesel
Manufacturer: Volvo Penta, Gothenburg, Sweden
Model: D13 B-N
Power: 440kW (600 HP)
Total Power: 880 kW (1200 HP)
Motor Type: Interior fixed motor
Propulsion: FPP x 2

PERFORMANCE

Maximum Speed: 14kts
Cruising Speed: 12kts
Fuel Capacity: 11000lt

RIGGING

Type: Schooner with modern aluminium Bermuda rig
Sails: North Sails, PolyPreg Cream (15.52 HA CTDR)
Number of Masts: 2
Total Area Upwind: 700m²

SERVICE BOAT INFORMATION

1 x 5.65m William Jet Boat (180HP)

BIG BLUE YACHTING

Big Blue Yachting was born to offer the sailing market a new genre of boat: one that combines the quality, craftsmanship and classic sailing feel of a hand-built wooden vessel with the cutting-edge technology and comfort usually associated with modern fibreglass motor boats.

Based in Bodrum (Turkey), a city renowned for its tradition of beautifully executed, hand-built wooden boats, Big Blue Yachting is founded upon the Borgo Santo Pietro Group philosophy of creating experiences that go beyond the bounds of the known to unite luxury and nature.

Our approach is solidly based on more than 30 years' experience of luxury design and build for private and commercial properties, hotels and restaurants, and a life-long passion for sailing.

We therefore:

- Know the economic investment and level of quality and detail that dedication to luxury demands;
- Understand the practical needs that guests, the crew and captain require both in harbour and at sea;
- Approach space in a different and creative way, finding innovative solutions to the restrictions imposed by the structure and requirements of a boat;
- Choose our materials and suppliers without compromise on quality.

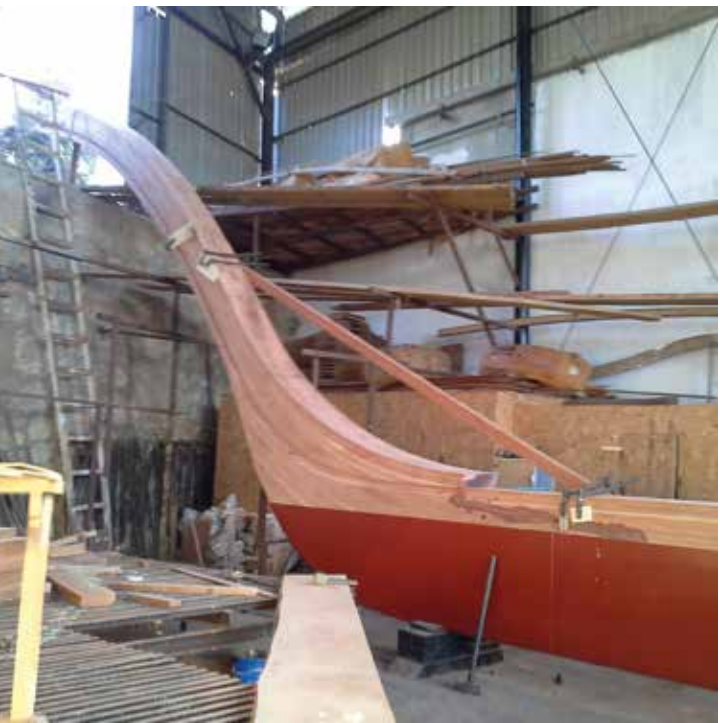

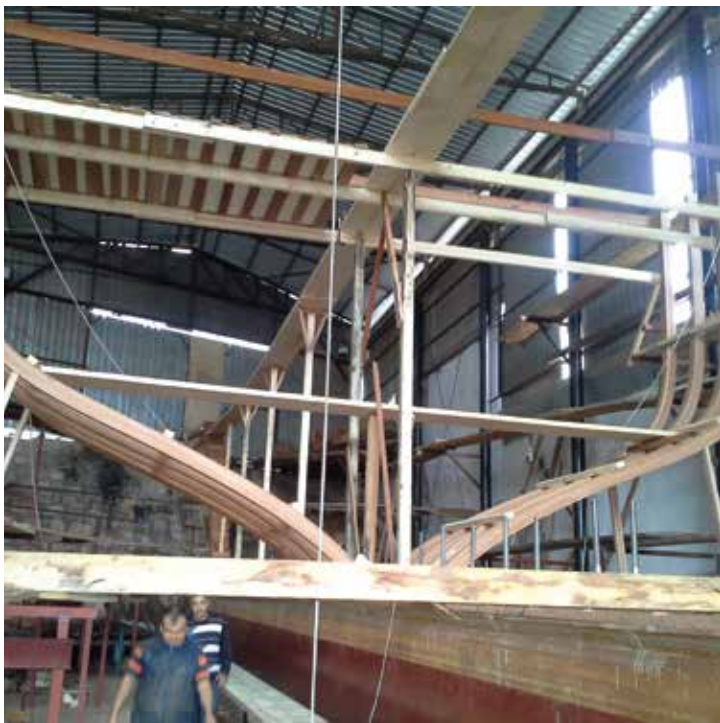

As a European company based in Bodrum, Turkey, we are:

- Perfectly positioned to mediate between the needs of our clients and the requirements of local bureaucracy and suppliers with clear, effective communication and timelines;
- Connected to a Europe-wide network of contacts that provides access to top-quality international materials, from leading brands to one-of-a-kind artisan pieces;
- Headquartered to take advantage of Bodrum's world-renowned, traditional wooden boat-building expertise and enable significant cost advantages that benefit the client.

Our team draws upon the talents and experience of renowned Danish designers Jeanette and Claus Thotttrup, whose outstanding design of luxury yacht *Satori* was received with universal acclaim upon its launch at the MYBA Charter Show in Barcelona for its quality and unprecedented sense of space and privacy.

THE BORGO SANTO PIETRO GROUP

Where nature meets luxury at the highest level

The Borgo Santo Pietro Group is a collection of companies with a single unifying philosophy. It traces its origins back to the Tuscan boutique hotel and estate Borgo Santo Pietro dreamed up by Jeanette and Claus Thotttrup in 2001. Both seasoned travellers, they wanted to create a nurturing haven where guests could feel immediately at home; where the thought and care behind each detail raised it a stratosphere above luxury hotels on the market by offering something real: a tangible sense of community.

By uniting their backgrounds in property development and fashion design, the Thotttrups transformed an 800-year-old ruined villa into a luxurious five-star hotel. Borgo Santo Pietro has since flourished into an award-winning, 200-acre estate with vineyards and an artisan cheese dairy, as well as an organically cultivated farm and culinary gardens that supply the ‘farm to plate’ inspiration and ingredients for the Group’s two Michelin-starred restaurants.

The aesthetic eye behind the Borgo Santo Pietro Group, Jeanette’s vision is firmly rooted in the feel of a space. She takes a holistic approach to design, imagining how each space could lend itself to different relaxing, uplifting and cocooning energies, and exploring the possibilities of how the feeling of being in that space could be elevated to offer an experience of nature and luxury at the highest level.

This extraordinary depth of thought and playful curiosity is the sounding board for each luxury lifestyle company under the Borgo Santo Pietro Group umbrella, which includes the Borgo Santo Pietro hotel and estate, Michelin-starred restaurants Meo Modo and La Bottega del Buon Caffè, the Borgo Cooking School, Seed to Skin natural skincare, the *Satori* luxury sailing yacht, and PN Homes property design and construction.

"We love what we do. It's what gets us up in the morning, and we hope that our passion inspires others to share it."

– Co-owner and co-designer
Jeanette Thottrup
