PIETRAMARE NATURAL FOOD

Pietramare food philosophy

Pietramare, a Michelin star restaurant in the resort, interprets the absolute essence of Calabria rich in culture, history, and traditions, with an innovative and contemporary breath whose management is based on careful teamwork: the Executive Chef Nicola Annunziata, the botanist, the marine biologist, the farmers and the fishermen.

The team offers cooking classes of various practical and theoretical levels that include sowing and harvesting experiences in our garden, at our farm and naturalistic experiences with dr. Carmine Lupia, botanist of Sila and Valli Cupe on the Silano / Catanzarese side.

"The constant search for excellence is the sprint that gives the route every day, to create unforgettable experiences for our guests."

A proximity cuisine, which follows the rhythms of nature and uses local raw materials.

"Recipes that tell the biodiversity of this land: fresh fish, meats, wild herbs, vegetables from our organic garden, generous nature is waiting to give us its roadside gifts, which we just have to collect."

Pietramare Natural wine cellar

The winery & the private room

The Pietramare cellar, located in sight, properly air-conditioned, offers about 800 different labels, both national and foreign. Much attention is paid to regional wines, especially from wineries that prefer and enhance native vines. Strong is the synergy with the historic Librandi Ciro winery where we organize guided visits and wine tastings.

The list of champagne, completed by various labels of national bubbles and meditation wines complete the offer. The private room and the fireplace lounge with a reserved "cigar room" area where there is no shortage of Tuscan cigars and accompanied by a wide selection of chocolate and spritz.

Osteria del Mare

Osteria del Mare

The Osteria del Mare is the second food point of the resort for breakfast, lunch and dinner. The bartender is creative and support the Chef.

The typical menu has its roots in the Calabrian cultural cuisine with a rural philosophy. Poor fish and wild vegetables make up the main part of the menu.

Dining food philosophy

Breakfast is served with excellent local products from the mastery of dairy and sheep farming typical of the Calabrian tradition. In addition to meats and cured meats from farms in the wild, such as the black Aspromonte pig and the Silana podolica cow.

The different types of bread are made by the chef with different qualities of native wheat from the Marquisate, better known as the granary of Italy. Very famous is the "Cappelli wheat" semolina and the Sibari rice flour, as well as the Carolea and Pennulara oils.

Not just pastry, but eggs and vegetables, fruit and cheeses, handmade jams and ancient flour loaves. Upon request gluten-free or specific products for every food need.

The accomodation of Praia Art Resort

Authenticity and sustainability

The Resort was built by local artisans through the use of natural raw materials such as wood, rock, clay and iron.

The Praia Art has 31 rooms including Villas, Suites and rooms, all with a recognizable design, recently renovated, furnished with handcrafted wooden furniture from the Silani woods, contrasted by rural antiques, typical of Calabria. Paintings, antique prints, but above all "the woods of the sea", the remains of boats, pieces of branches, roots sculpted by the waves, carefully arranged create a chromatic synergy of great effect. Note of merit for the beds, rigorously selected mattresses with particular attention to the health aspect without neglecting comfort.

Much attention to the design of the bathrooms and above all to the showers that are large and well equipped, with terracotta tiles of our production, handmade with care and dedication, each different from the other that tell the mutations with the colors of the Calabrian seasons.

The villas with gardens and private pools.
The suites, some of these with sea view.
The dwelling rooms and the artist's rooms.
All surrounded by greenery, with furnished and comfortable terraces.
The Praia Art Resort is an experience.

*"We are Italians, in this land called Calabria.
We Italians of Calabria."*

Bottega del Borgo

The Botteghe of Praia Art Resort

The Praia Art Resort is fashion, art and Food, our Botteghe and this is what the resort is all about, the pleasure of being together, taking a cultural and artisan holiday, learning to paint ceramics, making rush baskets, know local food and art products, get to know the region through photography and typical products. The holiday is a mix of sea, sun, tranquility and this is what Praia art offer.

One of the most characterizing creations of the Resort is represented by the hand-painted tiles by local artists in our ceramic workshop, along with wooden creations.

On the roofs or set in the stone walls, the clay jars that since the time of the ancient Kroton were used to contain oil and wine, today are our sentinels of the sea.

A wooden table is set for a wine tasting event. In the foreground, a tall, elegant wine glass is partially filled with a white wine, with a stream of liquid captured mid-pour. To its left, a smaller, empty wine glass sits on the table. The table is adorned with several small, white ceramic dishes containing various appetizers, including what appears to be a small bread roll with toppings, a dark spread on a slice of bread, and a small round item. A white ceramic container holds a small plant. The background is a dark, textured wall, possibly stone or brick, with warm, ambient lighting. The overall atmosphere is sophisticated and intimate.

A large, ancient tree with a thick, gnarled trunk and dense green foliage stands as the central focus in a lush forest. The tree's branches spread out in various directions, some reaching towards the sky. In the foreground, a rustic wooden fence made of horizontal logs runs across the frame. The background is filled with more trees, creating a dense canopy. The lighting is soft and natural, highlighting the textures of the bark and the vibrant green of the leaves.
