PALAZZO MONTEMARTINI ROME, A RADISSON COLLECTION HOTEL

The urban oasis loved by Italian and international cinema

A historical Palace, restored to new splendor, where history and contemporary design coexist, creating fascinating atmospheres: this is Palazzo Montemartini Rome, A Radisson Collection Hotel.

In the center of Rome, next to the ancient Baths of Diocletian, the palace is hidden in a private area crossed by the Servian Walls and, thanks to its strategic position and the quality of its services, it's a real urban oasis, an ideal refuge for those willing to spend a stay in the city, but also a meeting point for a break during the day, at the bar, at the restaurant, at the Spa or even for a special occasion.

“The charm of Palazzo Montemartini Rome is in every detail” – says Giuseppe Marchese, CEO of Ragosta Hotels Collection. “This is the reason why also the world of cinema is at home here, with national and international productions that make it a privileged set. We are proud to become a natural scenography for successful fiction, movies or TV programs.”

The 82 rooms and suites offer different solutions, due to the architectural and design characteristics, passing from classic to modern without interruption: among these the Skylight Suite stands out, dominated by a glass roof to admire the sky, while comfortably relaxing in the privacy of the room.

Senses Restaurant & Lounge Bar, characterized by an imposing modern fountain in the middle among the ancient columns brought back to light, is the perfect place to taste the specialties by Chef Alessandro Tognacci throughout the day, thanks to the menu proposals available all day long; or even be guided in the tasting of signature drinks created by the award-winning bartender Riccardo Di Dio Masa. Yet, not to be

missed, the outdoor areas for the summer, such as Terrazza Montemartini.

For a regenerating break, Caschera Spa, 600 sq.m. of wellness, with a variety of treatment rooms, heated indoor pool, whirlpool with inflated beds, cervical waterfalls, pool with tides and sensory showers with chromotherapy, Finnish shower, sauna, Turkish bath, salt cave and relaxation area with herbal teas.
