A Place in Capri

“

Discreet charm and home-like ease, this is the philosophy behind the creation of the J.K. Place Capri. The hotel's interiors echo the style and the concept of a luxurious residence, enhanced by the light and colour of the sea. Spacious rooms where the artful revival of the classical style is accented by the sunny curtains and the luminous white floors, highlighting the spectacular views of the Capri coastlines through the windows and balconies.

Forbes

Precious details

"As soon as you hit Capri, the slow-paced hubbub of the island gets under your skin. And then this a cool, collected sweetshop of smart. The 22 bedrooms have four-posters, marble bathrooms, loo paper that disappears behind its own tiny cupboard and French windows that open to the bay of Naples and misty Vesuvius beyond."

Traveller

THE LEADING HOTELS
OF THE WORLD.®

“

"The design furnishings take inspiration from "travel" furnitures, revamped and with a play on mirrors. Staff attention is memorable - here the guest is master, is looked after and listened to."

WONDER WORLD

“

High-ceilinged bedrooms are small but glamorous. Sleek canopied beds come with divinely squidgy down-comforters-like sleeping on a cloud. There are huge walk-in wardrobes and bathrooms with his-and-hers sinks.

TATLER

Subtle elegance

“French doors leading to tiny private decks provide the perfect view from shower, and the ideal spot for breakfast *à deux* as the sun rises.”

Condé Nast
Traveller

Mediterranean flavors

"Breakfast is a feast for the eyes in its sophisticated arrangement of food, and for the palate in the quality of its ingredients and careful preparation by the team's Chef."

WONDER WORLD

Gym

Beyond the pool deck is a pavilion, which houses a small but well equipped gym and an excellent wellness & spa facility, where you can let yourself be transported to a wonderful sensorial world.
