

Hello and welcome to DUCO Galleria,

My name is Francesca Cacciola from Le Calette, Cefalù.

Sicily is a land of family warmth, nature and generosity, and Le Calette has made these values its exclusive signature since 1969.

It was founded by my father, an engineer who fell in love with this pristine corner of the Mediterranean coast and imagined an oasis of peace built between the rocky inlets, in Italian "calette", of this bay. He intended the structure and its vast park to be a large family home for guests coming from all over the world, in complete harmony with its natural context.

When I was a child those palm trees were still so small that they fit in little vases.

Following in my father's footsteps, together with my husband and today also our daughter we brought Le Calette from a summer residence to an all-Sicilian way of experiencing luxury, without leaving its cozy homely atmosphere. For instance, it's a priceless experience to travel with all your senses in our spa, hosted in the suggestive location of the first wine-cellar of the hotel.

Everything here reflects our love for our land and in particular for this bay, we look forward to sharing it with you soon.
