

BORGO SANTANDREA

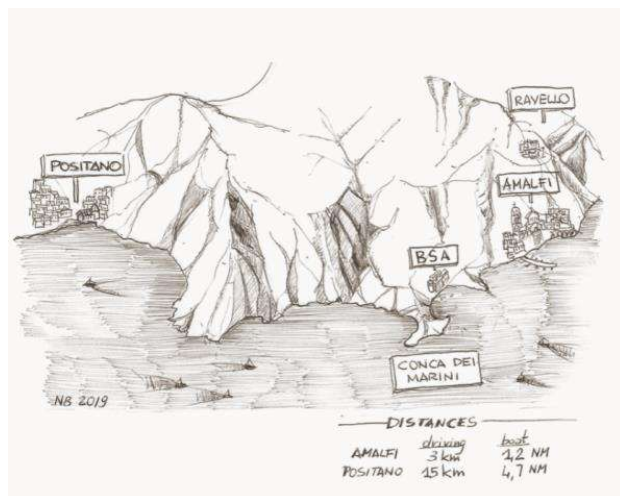

BORGO SANTANDREA

is the newcomer luxury 5 star hotel icon on the glamorous Amalfi Coast, representing a seductive blend of Italian style, local charm and natural beauty, where mid-century design meets Mediterranean style. The 49 individually-designed guestrooms and suites, located between 79 and 50 meters above sea level, with beautiful and uninterrupted views, are elegantly appointed with 35 unique ceramic floor tiles pattern, created expressly for the hotel, bespoke Italian furniture and a rare collection of 1950s design pieces and objets d'art. The three seafood-oriented restaurants led by Executive Chef Crescenzo Scotti are the quintessential of the Italian cuisine where regional and Mediterranean flavors are twisted in a modern way. The panoramic outdoor pool surrounded by terraced gardens is an intimate escape, conceived in harmony with the spectacular native coastal landscapes of the region and provides a link between the core of the hotel and the magnificent one-of-a-kind private pebble beach on the rocky Amalfi Coast.

LOCATION

Conca dei Marini. One of the Amalfi Coast's more secret seaside villages, a charming little sister to Positano and Amalfi. Perched on a cliff above a pellucid crescent of turquoise sea, the hamlet hosts one café, one pharmacy and two restaurants beloved of locals, who come by boat to eat sublimely at the water's edge, watching the sun tip lazily over the Tyrrhenian horizon.

THE PROJECT

The hotel, is a passion project that unites two Italian families, the Orlacchio and De Siano's, who bring generations of hospitality experience to this new property. The hotel opened its doors in 2022 and spent the winter months completing its room and suite offerings, adding new 4 rooms and suites, the wellness areas and the gardens. The winter works concluded four years of meticulous renovation carried out by the owners and management, to transform the property into a new Amalfi icon.

Inspired by the building's origins in the 1960s, the owners sought to bring attention to the original **Mid-Century features** whilst creating a 'home' that was unmistakably Italian. A labour of love since **2017**, the team of designers and landscapers worked hand-in-hand with architect Rino Gambardella and the two families from neighbouring Ischia, to ensure every corner of the property was a thoughtful reflection of the artistry and craftsmanship of the Campania region.

The resulting interiors and gardens are a **'Made in Italy' showcase**: from 'Heritage Collection' pieces by leading Italian furniture brand **Molteni&C**, to custom items from family-run furniture designers, **Tosconova** and **LISAR**, and bespoke work by local architects, artists and craftsmen.

The link with the Amalfi Coast is evident also in the art collection, with a key role played by local ceramic artists **Lucio Liguori** and **Marco Fusco** and their wonderful creations. In addition, to make the place a true Italian

home, a critical role has been played by gifted craftsmen, like the wonderful railings produced by the local blacksmith Piero Esposito or the floor-to-ceiling solid walnut bookshelves produced by Milanese artisan Paolo Erba.

Guests will find 35 different types of handmade and hand-painted tiles, a two-year project done with local producer **Cottovietri** and inspired by the geometric classic decor of nearby Pompeii and Herculaneum, as well as modern design. White Italian marble, most of it recovered and selected from Puglia, Veneto and Tuscany regions, sheathes surfaces around the property and reflects the light from the hand-blown Venetian glass lamps produced by **Venicem** that are dotted throughout the hotel.

THE PROJECT

The intricate blue and white tiles go hand-in-hand with **Once Milano** linens and **Dedar** and **Rubelli** textiles that reflect the far-reaching views of the Tyrrhenian Sea. All rooms and suites are swathed in natural light thanks to floor-to-ceiling windows, while the bathrooms bring the hotel's fragrant Mediterranean gardens inside with **Acqua di Parma** Arancia di Capri toiletries.

In 2019, the owners commissioned photographer **Enzo Rando**, once a student of Mimmo Jodice, to capture Borgo Santandrea's various historical and design influences from the Campania region. Rando travelled the 150 km radius around the hotel for two years, capturing over 500 images. 230 of his photographs, including shots of Pompeii and classic geometric designs, now hang on the hotel's walls.

The owners worked alongside landscape designer **Philip Adiatori** and the gardener **Gaetano Amato** to create a series of garden terraces bursting with Amalfi fruits and colours. Staying true to the surrounding landscape, the gardens are filled with plants typical of the coastline; olive, lemon and pomegranate trees, winter jasmine, and Myrtus Communis dating back 150 years.
