## GASTRONOMIC EXPERIENCE

### L'OLIVO

With two Michelin stars, it is also the only one on the Island of Capri to have been awarded with this prestigious recognition over the years. Under the guidance of the Executive Chefs Andrea Migliaccio and Salvatore Elefante, with the support of Head Chef Riccardo Valore, the restaurant embodies the purest expression of Mediterranean cuisine: an ancient cradle of flavors and aromas, the Roman Mare nostrum remains a constant baseline for our Chefs, who always make the ingredients a focal center of their creations, enhancing their qualities by carefully respecting their seasonal cycles. Signature dish of L'Olivo is the lemon scented homemade tagliolini pasta with burrata cheese, red prawns and sea asparagus: an authentic harmony of suggestions, conquering the five senses.

### IL RICCIO

With its enviable position overlooking the sea, right next to one of the symbols of the Island of Capri: the Blue Grotto. Directed by the Executive Chefs Andrea Migliaccio and Salvatore Elefante, Il Riccio has a more informal and marine setting, inspired by the Caprese architecture of the 60s and 70s, which was dominated by many different shades of blue, white and azure. Continuing to explore the delights of this sumptuous and yet traditional menu, it would be unthinkable not to mention the spaghetti with sea urchins, the restaurant's signature dish, which are paired with tuna belly with eggplant, red orange and toasted hazelnuts. The meal then ends with a visit to the Temptation Room, a picturesque and naive shrine of Neapolitan pastry and more. Its colourful treasures are called rum babà, sfogliatelle, tiramisù, pastiere, biscuits, Caprese cakes, Anacaprese cakes and much, much more.

### THE BISTROT RAGÙ

The Bistrot Ragù is the most popular setting among those who love to combine excellent meals and relaxed moments among friends. Its cuisine carries the banners of the Caprese and Neapolitan tradition, dominated by the green of basil, the white of cheese and the red of tomato: we are obviously talking about wood-fired pizzas, Caprese ravioli and eggplant parmigiana.

### THE BAR DEGLI ARTISTI

The Bar degli Artisti boasts one of the most important and complete collections of gins in all Europe, including 250 labels coming from 27 different countries. This remarkable collection is naturally accompanied by another one, equally rich, spanning over 25 different labels of tonic waters. The ideal place to enjoy an excellent cocktail at sunset, perhaps hoping to catch a view of the legendary green ray, that is said to light up the last burning moment of the day with an unexpected emerald hue.

## WELLNESS & LEISURE

### CAPRI MEDICAL SPA

Founded in 1995, the Capri Medical Spa of the Capri Palace Jumeirah is one of the first Medical Spas in Europe and home to the famous "Leg School". In an era in which the pursuit of wellbeing has become increasingly important from a cultural point of view, beauty centers have to offer tailor made programs and treatments for their guests, all aimed to the achievement of a better physical shape and an overall longer life expectancy.

### THE WHITE MUSEUM

A diffused museum showcased inside the common areas of the Capri Palace Jumeirah. Born with the purpose of having guests experience the different areas of the hotel with fascination and harmony, conceiving the vacation also as an aesthetic experience, the project conveys art as a passion to share and transforms it into one of the founding pillars of the new hospitality.
